

Fibro EZE

Fibromyalgia is technically described as 'non-inflammatory arthritis.' It is a condition, which, for whatever reason not yet fully established, affects primarily women. The symptoms of this condition are many and can vary greatly from patient to patient. The most common symptom of this condition is the presence of what are often referred to as 'tender points'. These are located around the neck area, the ribs, thighs, knees, spine, elbow and the base of the skull. Other symptoms of Fibromyalgia include constant fatigue, chemical sensitivities, yeast infections, a general compromise of the immune system, and sleep disorders due to a chemical imbalance in the brain.

Here at our research Institute, we have found that the majority of those suffering from Fibromyalgia also have excessive levels of both Systemic and Cellular Toxins. In 90 percent of the cases of Fibromyalgia we have worked with, symptoms and discomfort are reduced markedly by putting the sufferer through a Systemic and Cellular Cleanse. Once this has been accomplished the use of key nutrients such as Malic Acid for energy production and Glucose Modulation, Vitamins E and C for antioxidant protection, Co Enzyme Q10 for oxygenation of cells, Olive Leaf Extract for pain and irritation, and Dimethylglycine for oxygen utilization. Further, the addition of 5-Hydroxy Tryptophan raises specific brain chemicals, reducing or eliminating sleep disorders while improving mood, memory loss, headaches, and mood swings – all further symptoms of Fibromyalgia. By combining these key nutrients with detoxification and Full Spectrum Nutrition, hundreds of Fibromyalgia sufferers are find varying degrees of relief from this mysterious and potentially devastating condition.

Fibro EZE: Fibro Eze provides Targeted Nutrition for those suffering from the Fibromyalgia Syndrome. Research illustrating the benefits of specific nutrients in these individuals is well documented. Since Fibromyalgia is a relatively newly identified challenge, Fibro Eze represents the very latest nutritional viewpoint, based on research conducted, primarily during the last 24 months. This research shows that those suffering from this condition often have specific nutrient deficiencies as well as an ongoing problem eliminating toxins from the internal chemistry of the body.

When Fibro Eze is combined with our Toxi Cleanse formula as well as our MegaDoph and Oxy Aloe with Tahitian Noni, the body may be supported from a variety of angles. Like all our Targeted Programs, for best results, it is important to use a Full Spectrum product, such as LiquiDaily Supreme, which provides the body with the baseline values of 120+ nutrients.

90 Capsules		
Serving Size: 3 capsules		
Servings per Container 30		
Each 3 capsules contain:	% Daily Value	
Vitamin E (as d-alpha tocopherol succinate)	200 IU	667%
Vitamin B6 (as pyridoxine hydrochloride)	10 mg	500%
Vitamin C (as ascorbic acid)	800 mg	1330%
Magnesium (oxide granulation)	300 mg	75%
Selenium (methionate)	100 mcg	145%
Malic Acid	900 mg	*
Olive Leaf Extract	100 mg	*
Co Enzyme Q10	20 mg	*
nn-Dimethylglycine	50 mg	*
5- Hydroxy Tryptophan	75 mg	*
<i>*Daily Value Not Established</i>		
<i>Other Ingredients: Gelatin, purified water</i>		
Suggested Use: Three to six capsules daily, or as directed by your health care practitioner. For best results, we suggest using this product in conjunction with a Full Spectrum liquid nutritional program.		

WARNING: This product not recommended for use with SSRI's or MAO - inhibiting antidepressant prescriptions. May cause drowsiness; do NOT use while driving or operating heavy machinery.
