

Joint Flow & Joint Flow Lotion

Arthritis is another of those Chronic Degenerative conditions, which is on the epidemic rise around the world. It is estimated that by the year 2010 there will be over 100 million Osteo Arthritis sufferers, making it one of the most pervasive diseases in the world.

While it's true that Arthritis rarely causes death, it can compromise the quality of someone's life immensely. Recent developments, based on current research into this condition, have enabled The Institute of Nutritional Science to offer a protocol, which is highly effective in the prevention, management and even treatment of this painful, crippling condition. By combining many factors into one, easy-to-take protocol, those suffering from Arthritis can target their management from many angles.

By using natural anti-inflammatory factors such as Boswellia, Nettle Leaf, and MSM, pain can be reduced effectively. By combining Chondroitin and Glucosamine Sulfates together with powerful factors such as Cetyl Myristoleate (CMO) and Niacin, we have been able to aggressively attack the many causative factors involved in the development of this terrible condition.

Our new topical lotion is not only excellent for immediate localized relief of pain and inflammation, but we have found that topical CMO can rapidly relieve pain not only from Arthritis inflammation but sports and other injuries as well.

Joint Flow: The most complex, nutritional product, for the management of joint and connective tissue support available. By approaching joint and connective tissue health from a multifaceted approach, this formulation ensures that the user is addressing their concerns from every possible angle. Further, it is the only formulation available to the public containing Chondroitin Sulfate, N-Acetyl Glucosamine, CMO and MSM all in one capsule! CMO (Cetylmyristoleate) is the only substance, which has shown promise in addressing autoimmune conditions such as Rheumatoid Arthritis.

Capsules per container: 120

Serving Size: 4 capsules

Amount per 4 Capsules

% Daily Value

Vitamin B6 (as pyridoxine)	25 mg	1250%
Niacin (as niacinamide)	40 mg	200%

**Daily Value Not Established.*

Other Ingredients: Gelatin, purified water

Suggested use: Adults take 2 capsules daily or as directed by your health care practitioner.

For best results, we suggest using this product in conjunction with a Full Spectrum liquid nutritional program.

Joint Flow Lotion: A topical lotion to soothe stiff joints and help reduce inflammation, it provides topical Cetylmyristoleate (CMO) directly to the affected areas of the body. Utilizing a special carrying agent, this lotion penetrates deep into the affected areas, often bringing the temporary relief needed while the body is carrying out its own self-healing process.

A Cetylmyristoleate (CMO) lotion for external use only.

Contains: CMO, DMSO, Vitamin A, Vitamin D, Vitamin E, and Aloe Vera

Suggested Use: Adults apply topically to affected areas once or twice daily or as directed by your health care practitioner.
